RESCUE Intellitech Names James Corder as Regional Sales Manager

Expanding the North American sales team enables the advanced decontamination washer manufacturer RESCUE Intellitech to maintain exceptional customer support in a rapidly growing market.

KATY, Texas, October 25, 2023 – RESCUE Intellitech is excited to announce and welcome James Corder as Regional Sales Manager, effective October 1, 2023. In this new role, James will establish and maintain relationships with key clients, distributors, and partners to expand RESCUE Intellitech’s presence in his region. James offers a unique perspective on the market based on deep experience and knowledge about firefighters’ exposure to carcinogens and how to reduce the risk of developing cancer by washing their equipment. He is strategically located out of Nashville, Tennessee, and will report directly to the Director of Sales at RESCUE Intellitech, Don Fullmer.

“James is the ideal candidate to join our sales team. His diverse experience in sales across multiple industries makes him a valuable asset to the company. I’m excited to get James fully onboard and continue to grow our presence in the region and help firefighters fight cancer.” said Don Fullmer, Director of Sales at RESCUE Intellitech.

James brings extensive industry knowledge to RESCUE Intellitech. Having previously worked with a leading commercial washer manufacturer, he developed a strong desire to support the fire service in their critical battle against cancer. With over a decade of experience in B2B roles within the commercial appliance sector, James has a proven track record of success. He excels in building strong customer relationships and is enthusiastic about his role in supporting the fire service's mission.

“Ever since I was introduced to the concept of SCBA decontamination, I knew it would be a game changer for those who have to wear SCBAs and APRs for their jobs.” said James Corder, Regional Sales Manager at RESCUE Intellitech. “Most fire departments have extractors for their coats and pants, but at the moment there are still departments that aren't aware of SCBA machine-based decontamination. I'm excited to be given the opportunity to help change that and help them improve their decontamination process for SCBAs, helmets, boots, and gloves using the Solo Rescue.”

For the past 11 years, RESCUE Intellitech’s unwavering commitment has been to assist firefighters worldwide in reducing their exposure and minimizing the risk of getting a cancer diagnosis. With over 700 decon washers installed globally, RESCUE Intellitech’s decon washers make a

meaningful difference every day. For more information regarding RESCUE Intellitech and its innovative solutions for helping firefighters and first responders fight cancer, please visit rescueintellitech.com.

About RESCUE Intellitech

RESCUE Intellitech Inc., part of the Sandberg Development Group founded in the 1960s, is a leading provider of cutting-edge solutions for the firefighting and rescue services industry.
